Features and Benefits

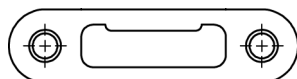

- Retractable lock points and concealed strikes provide a clean, continuous look – an advantage compared to other common types of sidelite hardware
- Two available gear sizes accommodate a wider range of panel heights
- Shallow 1" [25 mm] backset allows for narrow stile designs
- Multiple lock points maximize weather sealing capability
- Lock points are carefully positioned to avoid hinge hardware
- Radius end faceplates and strikes keep milling preparations simple and efficient
- Operating Knobs are available in 10 finishes to accompany any HOPPE swing door handle set
- Locking hardware is also compatible with any available HOPPE Window Handle for even more design options
